IPSec Licenses
=====

Overview

The LCOS IPSec implementation uses the following licenses/copyrights:

- KAME Project License
- ISAKMPD License
- BSD License
- BSD License Change
- OpenSSL License
- SSLeay License

The necessary sentences for "Advertising Material" are collected at the end of this document under

- Advertising Material Texts

BSD License Change

July 22, 1999

To All Licensees, Distributors of Any Version of BSD:

As you know, certain of the Berkeley Software Distribution ("BSD") source

code files require that further distributions of products containing all or portions of the software, acknowledge within their advertising materials that such products contain software developed by UC Berkeley and its contributors.

Specifically, the provision reads:

```
" * 3. All advertising materials mentioning features or use of this software
 * must display the following acknowledgement:
 * This product includes software developed by the University of
 * California, Berkeley and its contributors."
```

Effective immediately, licensees and distributors are no longer required to include the acknowledgement within advertising materials. Accordingly, the foregoing paragraph of those BSD Unix files containing it is hereby deleted in its entirety.

William Hoskins
Director, Office of Technology Licensing
University of California, Berkeley
